April 6: High School Prom

April 27-30 Senior Trip

April 17: Easter Holiday

May 15: Mother’s Day Holiday

May 26: Last day of school and Graduation

THE GAB WAY
Give it your best
Achieve your goals
Be respectful
Do the Math!

Fall brings great agriculture products and beautiful foliage in Georgia. Did you know these items of nature are also perfect tactual objects to help reinforce math skills?

Counting, grouping, sorting adding, subtracting and multiplying! Go on a nature hunt with your child and create a collection of leaves, various nuts, cotton blossoms, or other fall items. Work together to group the items and count various sets of the items. Compare the leaves and arrange from smallest to largest. Which is larger, a peanut, pecan or acorn? Count the acorns, peanuts, pecans etc. Compare the sets and ask which set is greater than, less than or equal?

Group the items together by 2’s to determine if the amount is odd or even. Group and count the items by 5s and 10s to 20, 50, or even 100! If you have 5 leaves and 2 acorns, how many nature items do you have in all? If you have 9 acorns and want to feed them equally to 3 squirrels, how many would each squirrel get?

Measuring and timing! Racking leaves and pine straw is good exercise. Predict how long it will take. Set a timer to see who finishes first! Lie on the ground and measure how many leaves tall you are. Then take turns measuring each other and compare their differences. My arm is 20 leaves (or pine straw) longs. I wonder how many acorns long it will be? Who will be the most leaves long?

Weighing! Compare the different items and arrange from lightest to heaviest. Estimate the weights. Which would weigh more, a sack of dry or wet leaves? Is an acorn heavier than a cotton blossom?

The Volume of Materials! Help determine how many items takes to fill a cup, bowl or basket. Will it take more cotton blossoms or acorns to fill up this cup?

We are so grateful to Tommy and Rachel Towery for their faithful service as our School Council President and Vice President who have served for two years. Their term has come to an end and we are seeking nominations for their position and two other parent/guardian seats on School Council. The School council meets four times a year and can be attended in person or via phone conference. School Council is made up of parent/guardians, two teachers, Frank Reynolds, Director of Residential Services and Dr. Gibson, School Superintendent. The school Council is an advisory committee that provides feedback and suggestions to the school administration. The purpose of the meetings is to keep parents and community stockholders involved in our decision making processes, to inform them of our budgetary plans and needs, and to inform them of all the programs and possibilities offered to our students here at GAB. The meetings are published in advance, are open to all, and minutes are available to anyone upon request. The next meeting is December 8th and we need the nominations before then. You may make your nomination by emailing Kelly Moorman at Kmooman@doe.k12.ga.us
Mark your calendar for December 3 and join students and their families all across our nation for “Dining In for Health Families” Day Sponsored by the American Association of Family and Consumer Sciences (AAFCS) who explain: “no matter what your family make-up is, where you live, or what your dinners are like, you can be part of The Family Dinner Project. The only thing you need to do is share a meal with the people who are closest to you. There are many resources to help you improve your family dinners and meet your dinnertime goals! Choose the options that work best for you. Just as there’s no one right way to be a family, there’s no one right way to have a family dinner.”

After signing up in the link below, we would love to hear from you that you are doing this! Go here to sign up: https://docs.google.com/forms/d/e/1FAIpQLScil6gSElMQs0DFBsbJE2lC9psUJX1NgPgaHRg1VviLa6wOQ/viewform?c=0&w=1 You may even win a prize!
Teachers and administrators helped make our Thanksgiving learning activities fun and delicious!

GAB teacher, Ms. Eckman is featured in the *Atlanta Journal and Constitution*! Read all about it here!

Try this at home!

**Roll-A-Turkey**

Take turns rolling a die. First one to finish drawing a turkey is the winner.

1. **Draw a head.**
2. **Draw a body.**
3. **Draw 1 wing.**
4. **Draw 1 foot.**
5. **Draw a face and wattle.**
6. **Draw 1 feather.**

Your turkey is finished when he has a body, a head, 2 wings, 2 feet, a face with a wattle and 4 or more tail feathers.

See how Mrs. Barfield made this a tactile experience!
